## ASX ANNOUNCEMENT

### HEALTHLINX LIMITED ANNOUNCES COMPLETION OF MERGER WITH CRYPTOME PHARMACEUTICALS LIMITED

The Directors are pleased to announce that the merger between Cryptome Pharmaceuticals Limited and HealthLinx Pty Ltd is now complete. Effective from the commencement of trading today, 16 March 2006, the Company will change its name from Cryptome Pharmaceuticals Limited to HealthLinx Limited and change its ASX code to HTX.

The merger sees the creation of a new company that will target the “Theranostic” market with a strong Biomarker discovery program utilising core proprietary enabling technologies. Targeting disease states that have un-met market needs through serum based diagnostics its first two products, OvPlex an Ovarian Cancer Diagnostic and CIP, Complications in Pregnancy will be commencing Phase II trials later this month.
